

NEKTON COMPLETE

Premium Budgie Multipellets

Complete feed for small parakeets

Available size:

1000g

High-Quality Basic Nutrition

NEKTON-Complete Premium Budgie Multipellets have been specially developed to meet the nutritional needs of budgies and other small parakeet species. The pellets contain a balanced combination of seeds and plant-based ingredients, ensuring a high-quality basic diet.

Promotes Healthy Digestion

The composition is designed to support the digestive system of budgies and other small parakeet species. Easily digestible grains and valuable raw materials help maintain a well-functioning metabolism and contribute to overall well-being.

Consistent Nutrient Intake

Thanks to the pelleted form, selective feeding is avoided. This ensures that the birds take in all the nutrients evenly and benefit from a constant and complete diet.

Natural Variety

The combination of seeds, grains, and plant-based ingredients provides variety in the feeding dish and appeals to the natural feeding behavior of small parakeets. This makes daily feeding not only balanced but also engaging.

This special composition ensures:

- Support of **healthy digestion**
- A balanced **supply of important nutrients**
- Optimal combination of seeds and plant-based ingredients
- Suitable for **small parakeet species of all ages**
