MONSTERDIETS

Tortoise

Tortoise MonsterDiet™ is a scientifically formulated, vegetable protein based diet for herbivorous land tortoises such as African Spur Thigh (Sulcatas), Red-Foot, Yellow-Foot, Leopard, Russian, Gopher and Pancake. This diet uses high quality protein and fiber sources blended with optimum vitamin and mineral levels to promote maximum growth, proper shell development, and longevity in one simple package.

In the wild, land tortoises consume a large variety of different foods. Trying to mimic this type of diet with grocery produce is difficult and risky. A balanced diet is key to warding off diseases such as Metabolic Bone Disease, bladder stones, renal disease and the condition referred to as pyramiding. Tortoise MonsterDiet™ utilizes natural grains and ingredients such as carrot, dandelion, celery, beet, parsley, lettuce and watercress to provide the nutrients required for long-term maintenance.

Features & Benefits

- Optimum fiber content to promote a healthy digestive tract.
- Formulated to promote healthy shell development and prevent abnormal growth associated with unbalanced nutrition.
- Provides proper Calcium/Phosphorous ratio to help prevent Metabolic Bone Disease.
- Provides 100% of Daily Nutritional Requirements for most land tortoises.
- Supplemented with Vitamin D3 to compensate for limited natural light exposure, although additional UV light is recommended.
- Contains a stabilized form of Vitamin C to enhance your animals' natural immune system.

Product Application & Storage

- Tortoise MonsterDiet™ should be fed free choice as the total diet. All uneaten food should be removed daily. Always make all diet changes gradually over the course of several days. Tortoises will learn to eat from dishes if initially mixed with green vegetables. Fresh green leaves and vegetables may be offered as an occasional treat but should constitute only a minor portion of the diet. Fresh clean water should be available at all times.
- Shelf Life: Two (2) years from date of manufacture
- Store in a cool, dry area away from sunlight. Rotate stock to use oldest feed first. "First in, first out" principle.

Ingredients

Oats, Corn, Wheat, Dehydrated Alfalfa Meal, Dehulled Soybean Meal, Cane Molasses, Vegetable Pomace (Carrot, Celery, Beet, Parsley, Lettuce, Watercress, Spinach), Soy Lecithin, Soy Oil, Limestone, Dicalcium Phosphate, Artificial Color, Iodized Salt, Calcium Propionate (preservative), Natural Flavoring, Artificial Flavoring, Choline Chloride, L-Lysine, dl-Methionine, Wheat Middlings, dl-Alpha Tocopheryl Acetate (Vitamin E Supplement), Niacin, Biotin, Calcium Pantothenate, Biotin, Vitamin B12 Supplement, Vitamin A Acetate, Riboflavin, Pyridoxine Hydrochloride, Menadione Sodium Bisulfite Complex (source of Vitamin K Activity), Thiamine Mononitrate, Folic Acid, Vitamin D3 Supplement, Ferrous Sulfate, Manganese Oxide, Zinc Oxide, Copper Sulfate, Potassium Iodide, Sodium Selenite, L-Ascorbyl-2-Polyphosphate (source of Vitamin C).

Packaging

14 oz. Pouch, 20 lb bag - all nitrogen preserved

Particle Size

1/8" pellet
